=

## With a Complete ZipKit Wood Parts Kit

### Pre-cut solid African Mahogany:

- Frames, ready to assemble
- Keel, bottom & deck battens, strongbacks, carlings, chines and sheers

### Precision machined from Aquatek Meranti Marine grade plywood with unique interlock- ing flame joints where required:

- Pre-fit bottom & side planking
- Transom, stem, breasthook, chine blocking, floor timbers and knees
- Reversible deck panels; one side routed with faux caulk joints, the other side smooth, giving you the choice of style you prefer.
- Frame gussets

**Shipping Crate transforms into  
building form!**

Includes Glen-L Zip plans, instructions & manual  
as well as instructions on using your ZipKit.

This custom kit was developed using **Glen-L Zip** plans by Mark Molden of Benchmark Products in California. His precision CNC cut complete wood kit allows you to begin assembling your boat the minute you unpack it...no tracing, measuring or cutting needed!

**Build Time:** approximately 400 hours  
**Cost:** \$3,400 plus \$550 truck freight shipping to the 48 contiguous US states. (485 pounds total)
