Lucky Pierre Notes

Weights

Hull weight: 1000 lbs.

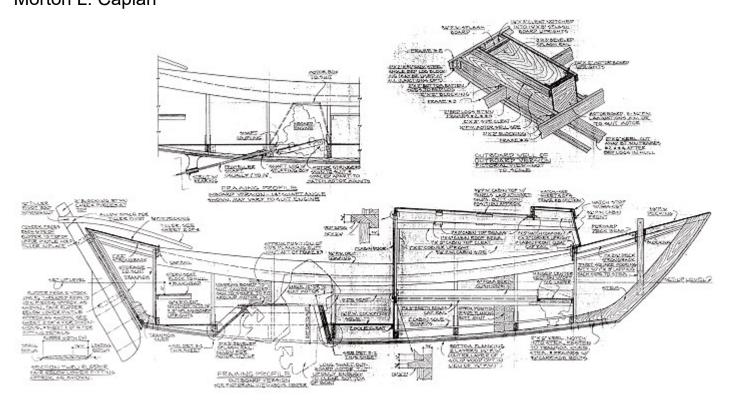

Dry weight of boat with cabin: 1562 lbs.

Displacement: 3865 lbs.

Load capacity: 2300 @ designed waterline (D.W.L.)

9-4-03

Lucky Pierre -completed several years ago exactly to plans with cockpit well for 15 HP Honda four-stroke outboard. Building required 1,200 hours and was a first time boat building project for moderately experienced wood worker. Cruises at 6.5 knots. Very tender but probably less so with a ton of fish. Morton L. Caplan
