

## Rebel Tug Notes

### Power

**Inboard power:** A single I/O engine is detailed, however, a stern-mounted inboard driving through a jet pump or v-drive is conceivable with suitable modifications. The weight of the power package should not exceed 800 lbs.

**Outboard power:** Designed for long-shaft motors (20" - 25"), short-shaft motors should not be used. Maximum HP: 210

#### SPEED/POWER ESTIMATES

13 knots	35 HP
17.5 knots	50 HP
22 knots	80 HP
26.5 knots	115 HP
31 knots	160 HP
35 knots	210 HP
